

Leo Mol Sculpture Garden

WEDDINGS

The Leo Mol Sculpture Garden at Assiniboine Park is a place where natural beauty and stunning works of art combine to offer a truly unique venue for your wedding ceremony or event. The garden is available for weddings, photography, and other special events.

Timing

Weddings are booked in two-hour time slots and include time for set-up, guests to arrive, the ceremony and photography. The first half hour of your time slot should allow for set-up and the arrival of your guests, with your ceremony scheduled to begin shortly thereafter. For example, if your time slot is booked from 2 pm – 4 pm, it is recommended that your ceremony commence at 2:30 pm. A one-hour wedding rehearsal is included in the fee. Your rehearsal must be booked in advance with the Events Office, preferably during regular office hours so that staff can be on hand to answer questions and advise of usual set up. Ceremony set-up in the Leo Mol Sculpture Garden accommodates 85 folding chairs. Standing room for additional guests allows for a total 150 people. Groups must arrive on time as time slots are booked back to back. Arriving late will result in less time to use for your event.

The Arbour is the most popular location for wedding ceremonies. There is no alternate indoor location within the Garden, so it is strongly recommended that as a precaution, in the event of rain, you make alternate arrangements elsewhere, such as the location of your reception.

Services Provided
